

List of NSW Independent Assessors and Registered Counsellors for Intrafamily and Special Case adoption

To arrange the preparation of a "Section 91 Court Report", you should contact one of the **approved assessors** below. You will generally need to forward the assessor the required fee before they can arrange an interview. Anyone that is required to consent to a child's adoption must undergo Registered Counselling within the timeframes set down in the adoption legislation. To arrange this, you should contact one of the **Registered Counsellors who are listed below with an asterix next to their name**. You will need to forward the Registered Counsellor the required fee before they can arrange an interview. Fees for these services are outlined in the Factsheet on Intrafamily Adoption. The Adoption Assessor and Registered Counsellor should not be the same person. If you reside outside the areas below, please contact Open Adoption and Permanency Services on **(02) 9716 3003** for assistance. These professionals are unable to provide legal advice on intrafamily adoption. It is the responsibility of the applicants to seek and obtain appropriate legal advice in the preparation of an adoption application.
