

Pre-condition: Permanency consultation has occurred, CYP is placed with FSP authorised carer*

*Whether the child or young person is under longer term or interim court orders, this process map assumes that the carer has been authorised by the FSP, that DCJ agrees that there is no realistic possibility of restoration, and that a permanency consultation has identified adoption as the preferred permanency goal. The map and notes are intended for an FSP with case management that is **not** an accredited adoption service provider.

ChildStory activities:
