## 7 & 8 — MANAGE PERFORMANCE & EVALUATE OUTCOMES

- Data Exchange, program logics and outcomes data inform what is working, supports continuous improvement, and builds evidence base
- Program evaluation assesses the program's effectiveness, efficiency, appropriateness and sustainability

## 1 — UNDERSTANDING NEEDS

- Engaging with a wide range of stakeholders, and using data, to better understand local priorities

## 6 — PROCURE PROVIDERS

- Contracts negotiated with existing providers

## Targeted Earlier Intervention Commissioning

- Sector Partnership
- Outcomes Focus
- Collaborative Service Design
- Evidence-informed Practice
- Local Decision-making & Leadership
- Contract Negotiation
- Continuous Improvement & Evaluation

## 2 & 3 — DEVELOP STRATEGY & DESIGN RESPONSE

- Findings from engagement, together with research and other evidence, to design TEI Program Outcomes Framework and local outcomes-focused service system, in partnership with sector

## 5 — DEVELOP PLAN

- Sector to develop program logics
- Data Exchange portal and outcomes data
- Long-term flexible contracts introduced, tailored to local needs and program outcomes

## 4 — SHAPE MARKET

- Engage TEI sector in the new TEI Program and local priorities
