Strike 2	482
Strike 3	114
Serious	357
Severe illegal	775

### NOTES:

The ASB Policy came into effect on 22 February 2016. However, for reporting period consistency the starting period is from Jan16-Jun16 but only includes data from 22 Feb 2016

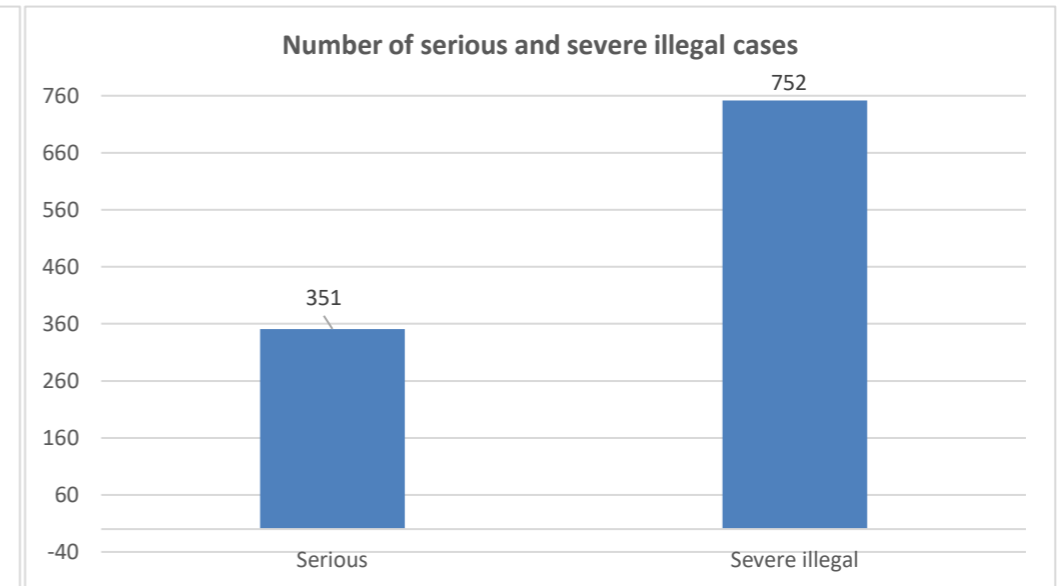

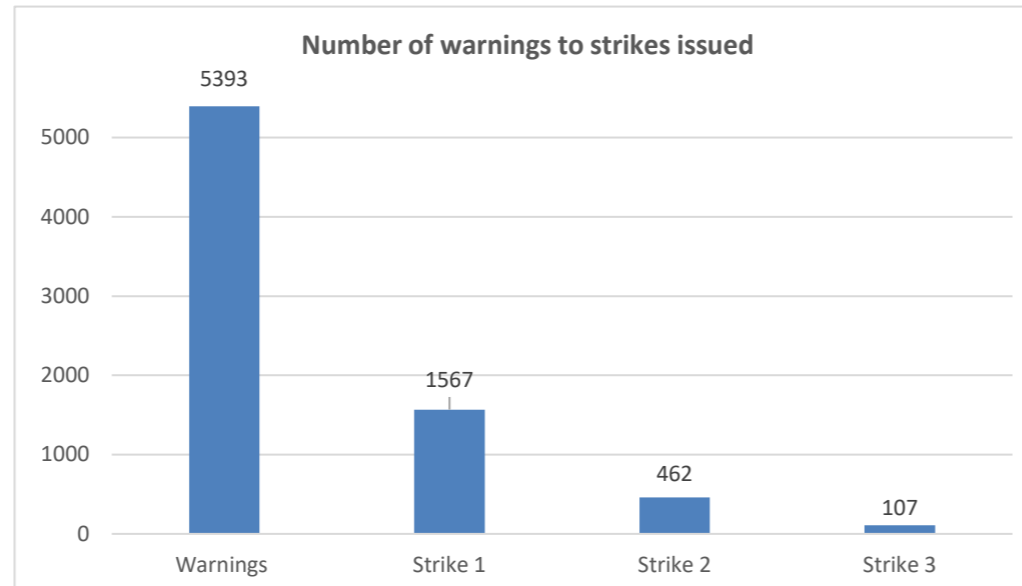

The data on the number of warnings and strikes demonstrates that the ASB policy is effective as the majority of tenants who receive a warning do not go on to receive a first strike.

Likewise the number of tenants who receive a second or third strike is much smaller than the number who receive a Warning, again demonstrating that antisocial behaviour is not often repeated once a strike notice has been issued.
