QAF - Child or young person's voice

know where I'm from, practice my culture and be part of the community that belongs to me

feel and be safe at home and confident that I am supported

feel connected to people I care about and who care about me

have people in my life that love me unconditionally

know who my family, relatives, kin and support workers are and I can rely on them to help and support me

have support and know who to talk to when I feel sad or worried

get the support I need to do my best at school to set me up for the future

get the support I need to be as healthy as I can be, so I can thrive

feel connected to people I care about and who care about me

The QAF will help me...
